

# Jennifer Perlmutter

b. 1966, based in Monterey/Carmel-by-the-Sea, CA

**Summary** I am a California-based painter and visual artist with a background in Hollywood set design and fine craft, including surface treatments and chinoiserie. I have been dedicated primarily to fine art painting since 2004 and have exhibited extensively in venues throughout California. In 2014, I opened my own eponymous gallery and 5 years later worked with city developers in Lafayette, CA to secure gallery space and resources for local artists and then managed that space until 2022. Since 2020, I have exhibited my work in a new gallery in Carmel-by-the-Sea. I continue to advocate for artists and build community through art and business as a member of many local community organizations.
